Profile/Objectives

Talented software developer graduated from the German University in Cairo, strong educational background in programming, and experience using cutting-edge development tools. Articulate and professional communication skills. Productive in both team-based and self-managed projects. Seeking an exciting and challenging position in the field of Software programming, Web Development and related areas; a position that would effectively make the most out of my potential.

Education

- **German University in Cairo – Cairo, Egypt, 2006-2011**
Faculty of Digital Media Engineering and Technology, Cumulative GPA “Good”
- **BBC Language Schools, Cairo, Egypt 1992-2006**
Egyptian Educational System (90%)

Work History

- **Santeon Group, June- 2012—present**
 - ❖ PHP developer maintaining websites and well known systems as **Blackboard** (<http://www.blackboard.com>), responsible of both resolving issues and developing new features.
 - ❖ PHP/Java developer supporting **PeopleStrategy**(<http://www.peoplestrategy.com/>) team in various projects with multiple technologies.
- **Freelance Web developer, 2010—present**
Worked with multiple local and remote clients on more than 10 Web development projects dealing with many technologies both server side and client side. Most of my work was done through Odesk, VWorker or directly with clients.

- **Techno Wireless TW, 2009**

1 month internship, worked as a .Net developer responsible of coding simple tasks as well as taking part in the database architecture.

- **International Touristic Services ITS, 2008**

3 month internship, Implemented a complete system for enhancing communications between employees, monitoring performance and tracking working time.
